
The Art of Madness
Shane Spero
I'm from the United States and have always admired
and enjoyed photography, both in RL and SL. My
journey into SL photography started in 2020. Although
I am fairly new at it, I have been enjoying the entire
process on a daily basis. It can be slightly addictive but
also extremely fulfilling. While I do love capturing
landscapes and still lifes, taking pictures of avatars is
what interests me the most. I prefer to use the natural
AO of an avatar to artificially creating poses for a
photograph. Strong colors have been a hallmark of my
images for a while, but these days I find myself drawn
to the power of the greyscale.
